EXAMINER'S AMENDMENT

1. The following is an examiner's statement of reasons for allowance: The prior art relied upon and cited did not expressly recite the limitation "initially observing a first temperature in said first carbonated fluid region of said container when said first carbonated fluid is present in said first carbonated fluid region of said container; subsequently observing a second temperature in said second carbonated fluid region of said container after a portion of said first carbonated fluid has been removed" along with the other limitations of the claim the Office believes that it would not have been obvious to modify the prior art to include this limitation.
